

Technical drawing of a 19-inch rackmountable device, showing three views: Front View, Side View, and Bottom View.

Front View: The device has a total width of 5.43 inches and a total height of 10.08 inches. The top section is 2.95 inches wide and 1.23 inches high, containing three circular components spaced 1.12 inches apart. The bottom section features a ground hole (Ø 0.2 inches) and a mounting bracket with a 1.95-inch wide base and a 0.86-inch high section. The bottom flange is 1.63 inches high and 0.08 inches thick.

Side View: The device has a total depth of 6.14 inches and a total height of 12.21 inches. The front flange is 10.08 inches high. The side panel has a depth of 4.25 inches. A (1) 3/4 inch NPT Knockout is located on the side panel, 1.97 inches from the top and 1.57 inches from the bottom. The side panel is 4.49 inches wide at the base. The bottom flange is 0.39 inches high and 0.08 inches thick. The side panel is secured with M3 screws.

Bottom View: The device has a total width of 5.43 inches and a total depth of 4.45 inches. The bottom flange is 0.95 inches high. The bottom panel contains four circular components, with a (4) 3/4 inch NPT Knockout located 3.23 inches from the left edge and 1.1 inches from the top edge. The bottom panel is 2.52 inches wide.
